PROFESSIONAL SUMMARY

IT Technician focused on Full-Stack Web Development, building modern, responsive applications with a strong emphasis on user experience. Currently developing my career as a software developer while strengthening my front-end skills with React and my back-end skills with Node.js, Express, and NestJS. I have worked on practical projects involving application integration, user authentication, RESTful API development, and relational database management. I am also deepening my knowledge of Cloud Computing, with a focus on Amazon Web Services (AWS), application hosting, cloud infrastructure, and deployment practices, while learning Docker to create and manage development environments. I am seeking an internship or entry-level Full-Stack Developer position where I can apply my skills, grow technically, contribute to efficient solutions, and gain professional experience.

EDUCATION

feb. 2023 — dec. 2025 **Technical Diploma in Internet Computing, IFPE (Federal Institute of Pernambuco)**
feb. 2026 — jul. 2026 **AWS Re/start Program, Escola da Nuvem**
oct. 2026 — oct. 2031 **Bachelor's Degree in Computer Science, UFAPE (Federal University of Agreste of Pernambuco)**

PROFESSIONAL EXPERIENCE

Jun 2025 – Oct 2025 | Full-Stack Developer — Green Label

- Developed a full-stack web platform to streamline the environmental certification process in Pernambuco, Brazil.
- Built the front end using Next.js and Tailwind CSS and the back end using NestJS and Prisma ORM, integrating the user interface, business logic, and database.
- Automated document submission, review, and tracking, using AI trained on previously approved documents to support the validation process.
- Helped reduce the average review time to approximately two days and prepared the solution to scale to additional processes.

Aug 2025 – Nov 2025 | Freelance Web Developer — Loja B&B Personalizados

- Developed a virtual product catalog that allowed customers to browse a variety of previously produced custom products.
- Built the front end using HTML, CSS, and JavaScript, focusing on responsive design and simple navigation on mobile devices.
- Designed and managed the database using Supabase to display products dynamically and in an organized manner.
- Integrated the catalog with WhatsApp, reducing average customer service time by approximately 10 minutes per customer and contributing to increased sales during the period.
